Qa Engineer | Plaridel, Bulacan 3004 | magsakayjhanrhey07@gmail.com | +63 936 452 9721 | [GitHub](#) | [LinkedIn](#)

Professional Summary

Computer Engineering graduate with hands-on QA experience testing web applications during OJT, including manual functional/regression testing and automated testing with Playwright, plus SQL for data validation. Skilled in identifying bugs, verifying functionality, and documenting issues across multiple client sites. Seeking a Junior QA Engineer role to apply and grow both manual and automation testing skills.

Technical Skills

- Automation Testing: Playwright (web UI automation, used alongside manual testing on a live client website)
 - Database / Data Validation: SQL
 - Manual Testing: Functional testing, regression testing, cross-browser checks, bug documentation
 - Version Control & Tools: Git, GitHub, Visual Studio
 - Programming: Python, Java, JavaScript, HTML/CSS
-

Professional Experience

Rt Lawrence-Ph Branch

Junior Qa Engineer

Malolos Bulacan

Jun 2025 - Aug 2025

- Performed manual functional and regression testing on multiple client websites, identifying and logging bugs across UI, forms, and navigation flows.
 - Collaborated on automating website testing using Playwright alongside manual test coverage, helping validate repeat scenarios faster and more consistently.
 - Verified bug fixes and re-tested updated builds before deployment, ensuring consistent functionality across browsers.
 - Updated and maintained test documentation, helping keep systems efficient and up to date for the team.
-

Technical Projects

RealRate

- Built a web app that detects the user's location and displays local currency values with real-time equivalents in other currencies.
- Manually tested input edge cases (invalid values, unsupported currencies) and verified conversion accuracy across scenarios.

Gymmo

- Developed a mobile application to help gym owners monitor and track daily activities and attendance of gym members.
- Tested core user flows (check-in, member records) for functional accuracy before finalizing features.

RH Poultry Manager

- Built a price management system for a poultry store to add, edit, and delete product listings and monitor updated prices in real time; tested core flows to catch data-handling issues.
-

Education

Bachelor of Science in Computer Engineering | *Bulacan State University*

2021 – 2026

Certificates

- Ethical Hacker Certificate — Cisco Networking Academy
- AI Basics: Overview of AI Certificate — Huawei Talent
- HCIA – AI V3.5 Course Certificate — Huawei Talent
- Information Representation and Data Organization Certificate — Huawei Talent
